Please use the pallet within the stipulated General Rules stated below:

- Fork must be fully inserted into Pallet before lifting it.
- Always distribute goods evenly in cross-stacked manner over the pallet surface
- Do not push loaded pallet on the floor, road or lorry; always lift it up before moving.
- Pallet are made from thermo-plastic resin. Never place them close to fire, heater, strong acids or solvent.
- Never exceed the maximum load specifications of the pallets.
- Do not hit pallet edges using forklift forks even though pallet is empty.
- Pallet become more brittle and slippery in cold room condition. Please use with care.
- Do not throw or drop pallet
- Pallet are designed only for the handling, storage and distribution of well packed goods. Please use accordingly
